Summary

I am a responsible, sociable, and proactive individual in my work, always ready to learn new knowledge. Through several academic projects, I have gained experience in teamwork and specialized knowledge in back-end development. In the next 1-3 years, my goal is to become a professional Back-End Developer, proficient in building complex data management systems and effectively optimizing processing performance.

Technical Skills

- **Web Developer:** .NET, ASP.NET, SQL, HTML & CSS, JavaScript, REST API, Java.

Education

Ho Chi Minh City University of Industry | 09/2022 - Present

Major: Information Technology

- **Achievements:** Received scholarships for 4 semesters
- **GPA:** 3.45

Projects

Project: Real-time Chat Application

Time: 04/2025 - 05/2025

Description:

- **Description:**

A real-time chat web application that allows multiple users to send and receive messages instantly. The system supports group and one-to-one conversations. The application using Java Spring boot with Websocket, SQL Server for database and using HTML, CSS, JavaScript for frontend.

- **Responsibilities:**

- Designed and created the database schema in SQL Server
- Implemented WebSocket configuration using Spring Boot to support real-time communication
- Developed RESTful APIs for user management and message handling.
- Handled backend logic including user connection, disconnection, and message routing.

- **Team:** 2 members
